

Experiment – 1

Aim

To develop a simple **Flight Reservation System** using **Zoho Creator** to demonstrate the **Software as a Service (SaaS)** model, allowing users to book domestic and international flights through a cloud-based application.

Procedure

1. Log in to Zoho Creator and create a new application named Flight Reservation System.
2. Create a form and add the required fields (Passenger Details, Trip Type, Flight Type, From, To, Departure, Return Date, Travelers, Travel Class, Fare Type, etc.).
3. Configure field properties and create basic workflows for One Way/Round Trip and Domestic/International flights.
4. Save the form, test it with sample data, and verify the generated reports.
5. Publish the application to demonstrate cloud-based access using the SaaS model.
